

Van Ameyde McAuslands

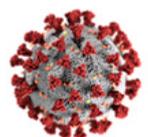

People Claims Team

Covid Safe Crew Changes

Van Ameyde McAuslands are pleased to announce they are now offering a national one stop service for COVID safe crew changes. We can offer Polymerase Chain Reaction (PCR) tests. Evidence shows that people who do not show signs or symptoms of COVID can be detected using saliva tests.

This swab test is overseen by our in-house registered nurse and claims consultant Venetia Lawrence. We can also offer consulting and advising on best practice COVID safe crew changes and infection control measures. Keeping your crew safe and giving you peace of mind.

Venetia is a highly skilled and professionally qualified medical practitioner holding diploma, BSc (Hons) and International Baccalaureate qualifications. Venetia is also a mariner with experience up to Deck Supervisor on a marine survey vessel. Having also worked as a specialist travel nurse consultant Venetia is ideally placed to provide assistance, guidance and claims management services to our 'peoples' team.

Venetia provides support, empathy and a full understanding of crewmember needs whilst also providing the investigative skills required by ship owners and manning agencies. This helps clients manage and understand treatment and control costs associated with illness, injury and repatriation.

Venetia is located at our Southampton office and is ready to help your personal injury / wellness team wherever that may take her.
